

Town of East Greenwich
Assistant Town Engineer

The Town of East Greenwich is currently accepting applications/resumes for the position of Assistant Town Engineer. This position is responsible for engineering review, oversight and inspection of public and privately owned subdivisions, land development projects within the Town, assisting and overseeing the design and construction of municipally owned projects, as well as providing technical assistance to all appropriate municipal department and divisions.

Qualifications: Bachelor's degree in civil and/or environmental engineering with a minimum of five (5) years progressive experience in construction\project management, with strong technical knowledge and understanding of public sector utility and infrastructure construction methods and techniques. The candidate should have one to three years' experience with solid waste management, recycling and/or regulatory enforcement of waste management programs. Previous municipal experience preferred. Valid Professional Engineer's License as issued by the State of Rhode Island or Engineering in Training License is preferred. Valid driver's license, with no restrictions that would limit or adversely affect insurability is required.

A full job description is available upon request.

Interested applicants must submit an application/resume to Sharon Kitchin, Director of Human Resources by Friday, February 24, 2017.
